Dariel Martinez

COMPUTER SCIENCE GRADUATE

(347)283-9986

dmart210@martdev.dev | mdariel31@gmail.com | www.darielmartinez.com | github.com/dmart210

EDUCATION

Computer Science B.A
CUNY Hunter College
Relevant Coursework:
Big Data Technology, Computer Architecture I II, Computer Theory, Database Management, Operating Systems, Practical Web Development, Software Analysis and Design I-III.

EXPERIENCE

Service Pro – *October 2021- October 2024*
Olive Garden / Paramus NJ
- Contributed to Olive Garden's top-ranking customer satisfaction nationwide by delivering exceptional service as a Service Pro
- Guided team members on guest interactions and adherence to corporate service protocols, ensuring high operational standards
- Gained experience in managing service operations within a corporate environment, focusing on guest satisfaction and team performance

Coding Teaching Leader– *November 2023 – April 2024*
Kodely.io / New York, NY
- Leading Kodely's career-connected learning and design-based workshops for elementary and middle school students, focusing on fostering 21st-century skill development.
- Conducting after-school workshops at various schools and districts, dedicated to the personal growth of each student in my cohort, ensuring a positive, enriching, fun, and safe experience.

TECHNICAL

Technical Skills & Expertise
- **Programming Languages:** Proficient in Typescript, Java, C++, and Python
- **Systems Integration & Troubleshooting:** Experience in systems integration and technical issue resolution.
- **Database Management:** Proficient with Postgres, MS SQL, and MongoDB.
- **Web Development:** Skilled in JavaScript frameworks (Node.js, React.js, Next.js), RESTful APIs (Java, JavaScript), front-end design (TailwindCSS), and backend tools (Express.js, Socket.IO, Spring Boot).
- **System Engineering:** Understanding of system design principles; keen interest in emerging technologies.
- **Development Practices:** Experience with Agile, version control (Git), and CI/CD pipelines.
- **Data Analytics:** Proficient in SQL, Excel, Tableau, Python, and interactive dashboard creation; exploring Generative AI integration.
- **Additional Skills:** Excellent communication, teamwork, and computer hardware assembly as a hobby.
